

Rhonda and Betty

“The office is so much more organized since Rhonda has taken over.”

Rhonda Komulianen is an office manager at Upper Valley Services in Moretown. Her support person is Betty Durand. Betty's competence in the office, her phone skills, and her interest in making others comfortable is obvious.

Rhonda and Betty share a love of crafts. During their time together Rhonda has taken up scrapbooking and quilting. We watch Rhonda pick up a quilt she is working on and turn the pages of the scrapbooks she has made for friends. Both activities showcase her sense of color and design and the finished results are often gifts for close friends and families.

Betty brings a wonderful sense of humor, a love of adventure, her interest in helping Rhonda get the courses and materials she needs to follow through with her love of crafts, and a delight in seeing Rhonda succeed. Which she does. The mutual respect Rhonda and Betty have and their pleasure/delight in working together is apparent within minutes of meeting them.
